**Physical Appearance:** Fine yellow powder.

**Recommended Dosage factor of this grade:** 1.3 x (desired phr of sulphur)

**Application Benefit :** **DS-35** is a special pre-mix grade having blend of IS & RMS in coating-oil which disperses easily into rubber matrices due to presence of high amount of soluble sulphur as well as coating-oil in it. By using this grade, the user can eliminate the process of mixing RMS with IS, thus saving production & manpower costs & increase in production efficiency.
