Our Leaders

Prof. (Dr.) Samit Ray

Chairman, Adamas World School
Chancellor, Adamas University
Chairman, RICE Group

In the lexicon of modern times, the definition of life is changing every moment. Our varied customs, convictions and ideologies have undergone a metamorphosis, which in turn have created a boom in scientific evaluation and cybernetics. Life is no longer smooth like prose or soothing like poetry; it's all about leading a meaningful life. Changes in social development have ushered in an era of liberty in social, religious and economic matters. Ours is a nation with enormous potential, and we at ADAMAS have undertaken the responsibility of exploring the various facets of education as the means to creating worthy citizens. In the ever-changing scenario of today, we shall imbibe the infinite with wisdom and create ADAMAS as a true centre of excellence.

Gobind S. Moorjani

Principal

A very warm greeting to all.

Education is not merely getting grades and cramming the information provided by the institutions but to let the children be curious and creative. Curiosity is the way to creativity and creativity is the path to the real learning. We must understand that education gives children wings to fly, explore and see the world with their own perspective. Every individual has the power of energy. The only thing that we need to do is identify and recognize that energy and ignite the desire of learning more. As everything is available in the universe, the only effort which humans have made – is search or research it. The same is the case with potential of our children. They have every possible quality in them, we only have to allow them to bring that out and spread the same for the betterment of mankind and We, at the Adamas World School, ensure that every single child gets the opportunity to identify his/her potential and bring out the best hidden in them.

God Bless!

The Spirit of Adamas

At ADAMAS WORLD SCHOOL, we provide just the right environment of love, care and nurture – an environment that can unlock the infinite energy of knowledge, wisdom, awareness, realisation and self-actualisation. We do this by facilitating the core academic curriculum with a smart class rooms, updated libraries, computers, audio visual learning mediums, sports and recreational amenities. These, combined with well designed course structure and a faculty that always does justice to education, has inspired all our students over a period of 10-12 years to believe in the limitless abilities of mankind.
