

## Junior Fun Activities

3 to 5 Years

### Materials Required

- 1 Egg carton
- 2 Coloured markers
- 3 Objects like big coloured buttons, left over pieces of crayons, cut pieces of coloured paper

### Objective

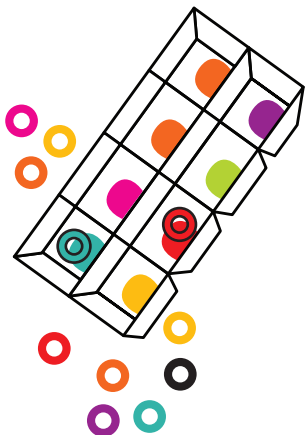

This is a fine motor activity.

Helps a child sit down, focus and concentrate on the activity at hand thus increasing attention span.

Develops the skill of sorting quantities based on some common quality.

# Let's play

## What to do?

**1** Give a silent demo of picking up one item and dropping it into the correct slot (matching colour of slot with the button in hand)

**2** Second one can be a bit exaggerated so that child takes over.

**3** You can make a couple of mistakes and watch the child correcting you. This will also give the child a sense of achievement.

**4** Appreciate and applaud and let him/her take over completely!
