

Junior Fun Activities

3 to 5 Years

FEELY BAG

● Learning Objectives

- To use the sense of touch effectively.
- To develop sorting skills.

● Materials Needed

- A bag (preferably a cloth bag with a draw string so that the child cannot see what is inside.)
- Some familiar and washed fruits and vegetables which you can place inside the bag
- Two empty baskets with cards saying fruits and vegetables

● What to do?

- To make the activity interesting, cover the child's eyes using a soft cloth hair band.
- Hand over the filled bag.
- The child must put his hand into the bag, touch any one object and identify it before taking it out. The child will then need to place it in the correct basket marked 'fruits' and 'vegetables'.
- Continue this activity until the bag is empty and then open the child's blindfold.
