

Junior Fun Activities

3 to 5 Years

LET US COUNT

● Learning Objectives

- To reinforce oral counting.
- To practice quantification of numbers.
- To apply knowledge of counting in everyday life.

● Materials Needed

- Objects around the house
- A list of things that can be counted

● What to do?

- Take the child on a quick tour around the house.
- Do a recap of vocabulary of things found in the house.
- Decide on a few things that are many in number and countable.
- Make a list of those things and tell your child to count how many are there in the house and write down that number.
- Please do not hesitate to support, help or guide the child in this activity, if he needs it.
