 - To explore art tools.

Let's play

What to do?

- Use your creativity to make the popsicles, cones and cups and set up your own ice cream parlour. Try to make the popsicles from the waste and recycled materials that you find around the house.
- Make a list of ice cream flavours. Invent your own flavours.
- Write the cost of the different types of ice creams on sale. (in 10s, 20s, 30s)
Cup ice cream, Cones, Scoops etc.
- Cut out some paper to make fake money of rupees 10, 20, 30.
- Have fun selling ice cream using the fake money.
- While dealing with the cash, try to use all mathematical operations like addition, subtraction, multiplication and division. Take the help of parents if you need to.
- Doing these simple tasks on your own will help you to develop self-help skills.
- You can create your own jingles to attract your family members to buy your ice creams.
