

Senior Fun Activities

5 to 10 Years

NUMBER FUN

Learning Objectives:

- Reinforcement of numbers.

Materials needed:

- Kneaded dough with a little bit of food colour added, if required.
- If you have ice cream sticks, then 10 sticks to be bundled together using a rubber band. You may need about 9-10 bundles.
- Alternately, please cut out strips of thin cardboard and bundle tens of them together.
- Some loose ice cream sticks or loose cardboard strips.

Let's play!

What to do?

- Parent to call out any number that their children are familiar with.
- Child to mold the dough and make the number.
- Next the child to quantify the number using the ice cream sticks.
- For example,
If the number called out is 35, child will first make a three and a five with the dough.
Next the child will keep three bundles and five individual sticks aside to show the number 35.
- Continue the game till the child is interested.
