

Bird Feeder Observation Activity

Objectives

- To show interest in the natural world.
- To learn to create and understand data
- To develop an inquiring mind

Materials Needed

- Printout of the observation sheet
- Pencil/ Colour pencils
- Eraser

Instructions

- Hang the birdfeeder out in the open where birds will feel free to come and feed
- Also keep a bowl beside it, either a heavy one or try to paste it to the surface so that it does not spill over
- Note the birds which come to feed
- Count them and try to note the rough length of time they spend at the feeder
- If possible, match their names with those provided or add the names your self
- This activity will need the help, support and presence of parents to some extent depending on the age of the child and their interest
