

# Fun time at home

## HOME LEARNING Activities

- Hands On Activities
- Rhymes
- And More

**Parent toddler program** – A program specially designed to engage parents and toddlers with lots of fun filled activities through recorded videos and home learning activities.

### Note to Parents:

- Organize every activity in neat pouches & trays.
- Ensure easy accessibility for the child to encourage independent learning.
- Allow the child to choose. These activities can be repeated too. Encourage routines and procedures around pack-up and clean-up.

If I cannot learn the way you teach me, teach me the way I can learn.

### Dear parents,

To encourage creativity and imaginative play along with skill-based learning, here are some hands on activity suggestions for the week. Encourage the child to do a minimum of 2 per day.

## Speak in Complete Sentences

### How to:

- Ask your toddler simple questions and encourage him to speak in complete sentences.
- This will give him a good idea of how sentence construction works and help him construct strong, coherent sentences. Ask your child simple things like, “do you want an orange?” and teach him to respond in a full sentence.
- This practice will act as a strong foundation for the future, as he will be able to articulate his thoughts better.

## Pom Poms and an Ice Cube Tray

### Materials Required-

- Pom Pom
- Tweezers
- Ice Cube Tray

### How to-

- Put a bunch of craft pom poms on the table with an ice cube tray.
- Then add some fine motor tools like tweezers or clothespins.
- Children will use the fine motor tools to pick up the pom poms and place them in the tray.
- This is easily one of our favorite fine motor activities.

## I like the G G G of the giraffe

I like the G G G of the giraffe  
I like its long long long neck too  
But the thing I like the best  
The very very best  
Are the big brown spots all through..

## Elly the Elephant

Elly the elephant goes this way and that  
This way and that(2)  
Elly the elephant goes this way and that  
She's so very big and she's so very fat  
She sways her trunk from side to side,  
Side to side, side to side  
She sways her trunk from side to side  
And she takes us all for a jolly ride.

## I have a little monkey

I have a little monkey who used to climb the  
tree(2)

He broke a little coconut and threw it down  
on me(2)

My monkey is so naughty I don't know what  
to do(2)

I put him in the motor car and drove him to  
the zoo(2)

## Coping As A Parent In A Pandemic

Parenting is not an easy task even in normal times. But, nowadays with parents and kids staying home the whole day long, it is even more difficult. It seems like a never-ending vacation which no one asked for! At first, children might have been thrilled to stay at home with Papa and Mama always around them. But now, after being cooped up in the house for days and months, they are tired of having 'nothing to do.' [Covid 19](#) has snatched away from our daily home and school schedules, and it is a stressful time for all concerned.

- **Parents are stressed**

Parents are the worst hit during the pandemic as they are left to take care of their children without much external support.

- **Effects of Covid 19**

[Covid-19](#) has sifted out the social interaction from our lives. Gone are their visits to their [grandparents](#), the bicycle rides and sports activities.

- **Learning to cope**

Habit is a comforting factor and assures us that life is moving on as it should. As far as possible, work out a schedule made up of a variety of activities which can be easily followed.

- **Alone time**

Balance 'together time' and 'alone time.'

- **Together time**

A lot of things which we took for granted in the pre-Covid world are not possible now. But, there are many things we can still do.

- **Behavioural challenges**

Small children may act out their fears and worries through improper behaviour. It is normal for them to get irritable and cranky after being cooped up for so long.
