Coping As A Parent In A Pandemic

Parenting is not an easy task even in normal times. But, nowadays with parents and kids staying home the whole day long, it is even more difficult. It seems like a never-ending vacation which no one asked for! At first, children might have been thrilled to stay at home with Papa and Mama always around them. But now, after being cooped up in the house for days and months, they are tired of having 'nothing to do.' [Covid 19](#) has snatched away from our daily home and school schedules, and it is a stressful time for all concerned.

Covid 19 won't last forever. We just have to get through one day at a time. Reassure children by saying that scientists are working very hard to find a vaccine for the pandemic, and soon things will be better. Let's make the forced stay at home a fun time for the family, and create wonderful memories which everyone will always remember!
