### Explanatory Note

(This does not form part of the notification, but is intended to indicate its general purport.)

Integrated Urban Regeneration and Water Transport System in Kochi is considered as an important project for mitigation of recurring floods in Cochin City and it is intended to restore canal navigation for intermodal connectivity with other modes of transport and tourism and also to restore the navigational lines existent in yesteryears. For flood containment and for navigational purpose, it is envisaged to maintain a minimum width of 16.5m for the Integrated Urban Regeneration and Water Transport System in Kochi canals (Edappally Canal, Market Canal, Thevara Canal, Thevara Perandoor Canal, Chilavannoor Canal, Konthuruthy Canal). Considering the importance of this social inclusive transport project, the Government have decided to declare all operational constructions related to Integrated Urban Regeneration and Water Transport System in Kochi (IURWTS) project as a service whose operation, maintenance, development and execution is essential to the life of the community under clause (j) of rule 7 of the Kerala Municipality Building Rules, 2019 and clause (j) of rule 7 of the Kerala Panchayat Building Rules, 2019.
