Commenting on the results, Mr. Arvind Goenka, Promoter and Managing Director said

"The performance of the company for the first nine months of this financial year has been strong. The company has been able to achieve Total Income of Rs. 289 crores with EBITDA and PAT of Rs. 96 crores and Rs. 55 crores respectively. EBITDA Margins have improved to 33.3% on the back of utilization of new capacities.

We have witnessed good growth in the domestic market on account of improved Commercial Vehicle sales. Domestic CV companies are launching many newer variants which is expected to boost demand for CV Tyres. Moreover, with BS-VI norms coming in from April 2020, it is expected to further boost demand for Tyres in the country. The demand for CV from export markets have also improved significantly.

Radialization in CV segment continues to grow and has touched ~70% for truck OEMs while it is ~40% in the truck replacement segment. Further, low-cost radial imports from China have declined sharply due to the implementation of anti-dumping duty (ADD) which has benefited domestic companies.

Taking into consideration the above trends we expect a good demand for rubber chemicals in India and we are well positioned to capture this growth.

During this year, our company commissioned Second Phase for expansion of Insoluble Sulphur i.e. 5,500 Metric Tonnes per annum at Mundra, Gujarat ahead of schedule.

We shall continue strive to improve the efficiency of our operations in order to help to enhance our performance going ahead."
