These financial statements are the responsibility of Adamas University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We believe that our audit provides a reasonable basis of our opinion.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the university's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the University has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. Nature of entity

The Institution "Adamas University" was created / established by an Act passed by the West Bengal Legislature, by the name "The Adamas University Act, 2014", which received the assent of the Hon'ble Governor on 18th March, 2014 vide Gazette Notification No. 546-L - on March 28, 2014. However, the said Act came into force on 11th April, 2014, as notified by the Government of West Bengal. Adamas University, a self-financed Private unitary University has been sponsored and financed by Sachis Kiran Roy Memorial Trust.

1.2 Basis of Accounting

The term 'basis of accounting' refers to the timing of recognition of revenue, expenses, assets and liabilities in accounts. Accrual basis of accounting is the method of recording transactions by which revenue, expenses, assets and liabilities are reflected in the accounts in the period in which they accrue. This accrual basis of accounting includes considerations relating to accrual of income, provisioning of expenses, deferral, allocations like depreciation and amortization. This basis is also referred to as 'Mercantile Basis of Accounting'.

Accrual basis of accounting records the financial effects of the transactions and other events of an enterprise in the period in which they occurred. Accrual basis recognises that the economic events that affect an enterprise's performance. The goal of accrual basis of accounting is to relate the accomplishments (measured in the form of revenue) and the efforts (measured in terms of costs) so that the reported net income measures an enterprise's performance during a period. Apart from income measurement, accrual basis of accounting recognises assets, liabilities or components of revenue and expenses for amount received or paid in cash in past, and amounts expected to be received or paid in cash in future.

The Annual Statements of Account for year 2014 - 2015 in form of Balance Sheet, Income & Expenditure Account together with other schedule of the University is prepared according to the prescribed guidelines issued by ICAI.

The Annual Statements of Account of the University is prepared under the historic cost convention and in accordance with applicable Accounting Standards (AS) issued by Institute of Chartered Accountants of India (ICAI) except where otherwise stated. The Financial Statement of the University is prepared by following all the fundamental accounting assumptions mentioned in AS-1 (Disclosure of Accounting Policies) issued by ICAI.

University generally follows Fund Based Accounting under Accrual Basis of Accounting as enumerated below.

University on receipt of grants / donations and other forms of revenue, the use of which may be either unrestricted or subject to the restrictions imposed by the contributors, i.e., such funds can only be used for specific purposes and, therefore, are not available for general purposes. Further, there might also be legal / other binding restrictions on University to use certain specific amounts only for specified purposes or University may also on their own, earmark certain unrestricted funds for specific purposes. For the purpose of appropriate presentation of these funds in the financial statements their nature and characteristics are necessary to be understood which are described below :

(a) **Unrestricted funds:** Unrestricted funds refer to funds contributed to the University with no specific restrictions. The obligation of the University, while accepting an unrestricted donation or grant is to ensure its usage for general purposes of the University. All incomes in the form of donations, investment income, fees, etc. not subject to external restrictions are a part of unrestricted funds. For the purpose of presentation in the Income and Expenditure account and the Balance Sheet, the unrestricted funds can be further classified into three categories viz., Corpus, Designated Funds and General Fund.

(i) **Corpus:** Corpus refers to the funds contributed by Sponsoring Trust to start the University and are non-reducible funds which can however be increased by additional contribution by the Sponsoring Trust for furtherance of the objects of the University in accordance with the provisions of the Adamas University Act, 2014. These funds need to be distinguished from funds which are in the nature of loan provided by the Sponsoring Trust, which are grants given by contributors other than Sponsoring Trust with reference to the total investment in the University or by way of contribution towards outlay. No repayment is ordinarily expected of such fund.

(ii) **Designated funds:** Designated funds are unrestricted funds which have been set aside by the Managing Committee of the University for specific purposes or to meet future commitments. Unlike restricted funds, any designations are self-imposed and are not normally legally binding. The University can lift the designation whenever it wishes and reallocate the funds to some other designated purpose(s).

(iii) **General fund:** Unrestricted funds other than 'designated funds' and 'corpus' are a part of the 'General Fund'.

(b) **Restricted funds:** Restricted funds are subject to certain conditions set out by the contributors and agreed to by the University when accepting the contributions. The restriction may apply to the use of the moneys received or income earned from the investment of such moneys or both. Funds, the use of which is subject to legal restrictions are also considered as restricted funds.

(c) **Endowment funds:** These funds are another form of restricted funds. Endowment funds are those funds which have been received with a stipulation from the contributor/donor that the amount received should not be used for any purpose. Only the income earned from these funds can be used either for general purposes of the University or for specific purposes, depending on the terms of the contribution made. Usually, the amount received is invested outside the educational institutions as per the terms of the contribution, if any.

Designated funds are created by appropriation of the surplus for the year for meeting a revenue expenditure or capital expenditure in future. When revenue expenditure is incurred with respect to a designated fund, the same is debited to the Income and Expenditure account ('Designated Funds' column). A corresponding amount is transferred from the concerned designated fund account to the credit of the Income and Expenditure account after determining the surplus / deficit for the year since the purpose of the designated fund is over to that extent. Where the designated fund has been created for meeting a capital expenditure, the relevant asset account is debited by the amount of such capital expenditure and a corresponding amount is transferred from the concerned designated fund account to the credit of the Income and Expenditure account after determining surplus / deficit for the year. In respect of the asset, e.g., a building, being constructed by the University, on completion of the same, the entire balance, if any, of the relevant designated fund is transferred to the credit of the Income and Expenditure Account after determining the surplus / deficit for the year.

In case an educational institution holds specific investments against the designated funds, income earned, if any, on such investments, is credited to the Income and Expenditure Account for the year in which the income is so earned and is shown in 'Designated Funds' column. An equivalent amount may be transferred to the concerned Designated Fund Account after determining the surplus/deficit for the year as per the policy of the educational institution.

Items of revenue and expenses that do not relate to any designated fund or restricted fund are reflected in the 'General Fund' column of the Income and Expenditure account. The surplus/deficit for the year after appropriations is transferred and presented as surplus/deficit separately as a part of 'General Fund' in the Balance Sheet. Apart from such surplus/deficit, the 'General Fund' also includes the following which are separately presented in the Balance Sheet:

(a) Grants related to a non-depreciable asset.

(b) Grants of the nature of founders/promoters' contribution.

Restricted funds, that represent the contributions received the use of which is restricted by the contributors, are credited to a separate fund account when the amount is received and reflected separately in the Balance Sheet. Such funds may be received for meeting revenue expenditure or capital expenditure. Where the fund is meant for meeting revenue expenditure, upon incurring of such expenditure, the same is charged to the Income and Expenditure account ('Restricted Funds' column); a corresponding amount is transferred from the concerned restricted fund account to the credit of the Income and Expenditure Account ('Restricted Funds' column). Where the fund is meant for meeting capital expenditure, upon incurring of the expenditure, the relevant asset account is debited which is depreciated as per AS 6. The concerned restricted fund account is treated as deferred income, not exceeding of the cost of the asset, and is transferred to the credit of the Income and Expenditure Account in proportion to the depreciation charged every year (both the income so transferred and the depreciation should be shown in the 'Restricted Funds' column). The unutilised balance of deferred income would continue to form part of the Restricted Fund. Any excess of the balance of the concerned restricted fund account over and above the cost of the asset may have to be refunded to the donor. In case the donor does not require the same to be refunded, it is treated as Income and credited to the Income and Expenditure Account pertaining to the relevant year ('General Fund' column). Where the restricted fund is in respect of a non-depreciable asset, the concerned restricted fund account is transferred to the 'General Fund' in the Balance Sheet when the asset is acquired.

The restricted funds will normally carry a stipulation as to the use of income earned on investments made out of the contributions received. If the terms stipulate that the income earned should be used for the same purpose for which the contribution was made, the income earned should be credited to the concerned Restricted Fund Account. Where the terms stipulate a general use of the income earned, the same should be credited to the Income and Expenditure Account ('General Fund' column) of the year in which the income is so earned.

With regard to endowment funds, the income earned from investments of these funds is recognised in the Income and Expenditure Account only to the extent of the expenditure incurred for the relevant purpose. Both the income and the expense should be shown in the 'Restricted Funds' column. Any excess of the income not recognised as aforesaid would continue to remain part of the concerned fund.

1.3 Revenue Recognition

Fees from students net of Scholarship amount wherever applicable is accounted for on accrual basis, sale of Form and Prospectus is accounted for on receipt basis.

Interests on earmarked funds are credited to the respective fund account.

Interest on Investment is recognised on accrual basis.
