MEDICAL SCIENCES**

**Date: 10-11th February, 2022**

## About the School

The School was established in a lush green set-up of Adamas University at the Adamas Knowledge City Campus on Barasat-Barrackpore Road, Kolkata in the year 2016. SOMS is established with a vision to create and disseminate knowledge for producing quality health care professionals with global standard. Presently, the program bouquet of SOMS includes M.Pharm (Pharmaceutics), B.Pharm and D.Pharm. Striving in the path to fulfil the vision, SOMS has been regularly organizing international/ national conferences, workshops and invited lectures with the participation of eminent experts from field Academics, Research, Pharmaceutical Industries and Regulatory authorities of national and international repute. These knowledge-based interactions trigger the critical thinking and independent learning aspects of students which expose them to the contemporary trends that is prevalent to the healthcare sector.

## About the Conference

The pandemic era has enforced paradigm shift in multiple domains of academics and research including the field of pharmacy. In the domain of Pharmacy, spotlight is currently focused on drug discovery, drug delivery as well as on vaccine development against the deadly virus. Global scientists are continuously brainstorming to find out newer strategies to combat COVID-19 virus. Intense strategies were framed to reduce the time invested in the journey of a drug/ vaccine from lab to market. The international conference aims to draw the attention of participants from all healthcare sectors including industry, academia and drug regulatory bodies. Internationally renowned speakers from diverse fields would share their expertise and inform about the changing research scenario due to the influence of the pandemic. Participants would be invited to give oral/poster presentations on all domains related to healthcare including drug design and development, analytical methods, formulation development, pharmacology and toxicology, pharmacognosy, regulatory aspects, quality control etc. This conference would provide an ideal platform to the participant's interaction, creation and dissemination of ideas amongst the distinguished healthcare professionals, eminent scientists, technologists and industrialists.

**The event is focused but not limited to the following areas**

- Drugs delivery system
- Pharmaceutical analysis and Techniques
- Clinical Pharmacy
- Formulation design
- Good Manufacturing Practices
- Pharmacology and Toxicology
- Drug regulatory affairs
- Bio-therapeutics Drug discovery and Developments
- Plant derived pharmaceutical products

We cordially invite you to participate in the international conference and join the plethora of eminent scientists, professionals and technologists to make the deliberation a great success. We are confident that the event would enrich the knowledge of all participants and provide them with the mind-set necessary to cope up with challenges presented by the pandemic.
